

The Professional Development

Fund

The Professional Development Fund (PDF) is money set aside under Article VII of the contract between the Bay Shore Classroom Teachers Association and the Bay Shore Union Free School District to be used for **teacher-initiated** professional development. The contract calls for a specific amount of money to be made available on an annual basis for the duration of the contractual agreement. The money available is for each contractual year, July 1, through June 30, and there is no provision for carryover into the following year. The fund is intended to broaden professional growth opportunities for members.

The Professional Development Committee (PDC) considers funding activities for the professional development of members of the unit, which include the following: special grant leaves and in-service leaves (for specific information, refer to the contract), and professional education. Professional education includes graduate, undergraduate, or in-service courses in which a member enrolls to increase or improve skills relating to his/her primary assignment. **Members may request**

reimbursement for tuition paid for courses provided the courses are not for permanent or administrative certification.
